HOW DOES THE BOND BANK OPERATE

MAJOR GOAL

To reduce overall long-term borrowing costs of governmental units within the State for capital improvement projects through lower interest and reduced issuance costs of bond issues.

BENEFITS TO PARTICIPATING COMMUNITIES

Compared to a traditional public bond sale by a local governmental unit, the Bond Bank's financing program offers communities and districts several significant advantages, including:

REDUCED TIME REQUIREMENTS. The local government does not have to manage its own public sale of bonds. Instead, the Bond Bank obtains funds for the community's loan by its own issuance of bonds.

REDUCED COST OF ISSUANCE. By participating in the Bond Bank program, a local government is, in effect pooling its borrowing with that of many other New Hampshire local governments. Since many costs of borrowing are fixed, this pooling spreads the fixed costs of issuance across all participating community loans, thereby reducing the costs paid by each individual borrower. Participating local governmental units who borrow through the Bond Bank do not need to print their own bonds or prepare or mail any Official Statements, and there are no annual trustee and paying agent fees.

COMPETITIVE INTEREST RATES. By reaching the national capital markets, the Bond Bank has been able to obtain competitive interest rates on its Bonds since its initial issue in 1978 and has passed those rates on to communities through the loan rates charged by the Bond Bank.

STREAMLINED DISCLOSURE AND BORROWING PROCESS. The only disclosure requirements for most communities borrowing from the Bond Bank are those contained in the Bond Bank's application form. Participating communities do not have to prepare or print their own Official Statements or obtain their own bond ratings or bond insurance. Given the Securities and Exchange Commission's increased emphasis on municipal disclosure, this streamlined Bond Bank disclosure process will be of increased benefit to communities participating in Bond Bank sales.

TECHNICAL ASSISTANCE AND BOND RATING. The Bond Bank also offers communities on-going assistance in the review of planned maturity schedules, preparation of debt service estimates and the updating of such estimates as bond market conditions change. The Bond Bank staff, Board of Directors and professional financial advisor and bond counsel also review Bond Bank financing for compliance with tax reform.

In June, 2013, Standard and Poor's assigned a rating of AA and Moody's Investors Service assigned a rating of Aa3 for bonds issued per the 1978 Resolution.

Participating in a Bond Bank financing eliminates the need for a community to obtain a bond rating or bond insurance. Each community simply fills out its loan application and follows the process for obtaining local approval of debt prescribed by state law. Participants benefit from the Bond Bank's strong credit rating, receiving credit enhancement without having to obtain bond insurance.

POWER AND DUTIES

The New Hampshire Municipal Bond Bank is empowered to issue bonds and notes in its own name and to use the proceeds to directly purchase the bonds or notes of governmental units. The result is to combine a number of smaller bond issues into a single attractive package which the Bond Bank then offers to the national credit markets.

ORGANIZATIONAL BACKGROUND

The membership of the Bond Bank consists of five directors: The State Treasurer, who is a director ex-officio, and four directors appointed by the Governor and Council, one of whom shall be a designee of the NH Municipal Association and at least two of whom shall have a background in municipal finance. The four directors appointed by the Governor and Council serve for terms of five years except that vacancies shall be filled for the unexpired term. The Board annually elects one of its members as Chairman, one as Vice-Chairman, and one as Treasurer and appoints an Executive Director who also serves as Secretary.

No State appropriations are made to the Bank. Fees and charges are authorized to be charged by the Bank for the use of its services or facilities.

Each governmental unit which requests that the Bank purchase its bonds will have its application reviewed by the Directors. Factors to be considered in such review include the outstanding debt of the unit, state and local valuation, tax levy and tax receivables, demographic trends of each area and the ability of the governmental unit to repay the loan. Once approved for the loan, the local unit issues a bond in marketable, negotiable form, accompanied by a legal opinion from a recognized bond counsel. The Bank will establish dates, maturities, and redemption provisions for the bonds. After the bonds are purchased by the NHMBB, the Bank's Trustee will supervise the payment of debt service for the term of the bond issue.

All bonds of the Bank are secured by reserve funds. These reserves provide security for the repayment of the Bank's bonds in the event of a governmental unit default. Although the Bank's bonds are not guaranteed by the State, the law provides a procedure for the Bank to request an advance of State funds, at no interest cost, to maintain these legally required reserves. Operating costs of the Bank are covered by fees and charges and by income from its investments.
